Puneet —

You did a fantastic job today! That is all you really need to know!

I tried to take detailed notes, but most of my feedback is of the form “nice work!” — and then some potentially useful work around framing of and discussion of eval results.

I’m so impressed with how much you’ve accomplished in the past few months — I hope you A) feel good about this and B) see that the PhD is genuinely in reach!

- M
